IDO on BSC,
distribution on any
EVM-compatible
network

KPI-Based Raise Unlocks
High raise projects
receive funds in tranches
according to the
agreed-upon KPI

Whitelisting
Project can facilitate a
fundraise for it's community
by providing a custom list of
participants

KYC
One-time KYC by
Onfido guarantees full
regulatory compliance
and ensures we don't
hold any personal data

**Vesting and
Distribution**
Platform supports
multiple vesting types
and schedules

Fair Lottery
Absence of a tiered system
and a stand-off period after
each IDO both lead to a highly
diverse set of participants

Who We Are

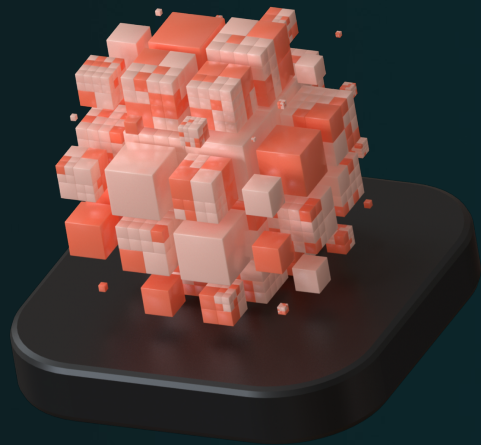

Our angels are more than just financial contributors, they understand how to promote and bring exposure to projects in the open market

Marketing Community

We're a community of marketers, KOLs, influencers and venture capitalists with extensive industry experience

Global Reach

We span over 80 countries, creating global exposure for each project we back

Community Incentives

Accelerate the post-launch momentum by creating a series of community-based incentives

Bounties

How-To/learn-to tutorials, Medium/YouTube content, social media activity and community management help is provided in exchange for token rewards

Referral Program

Two tiered referral program provides continuous rewards from IDOs, farming and bounty programs

Farming

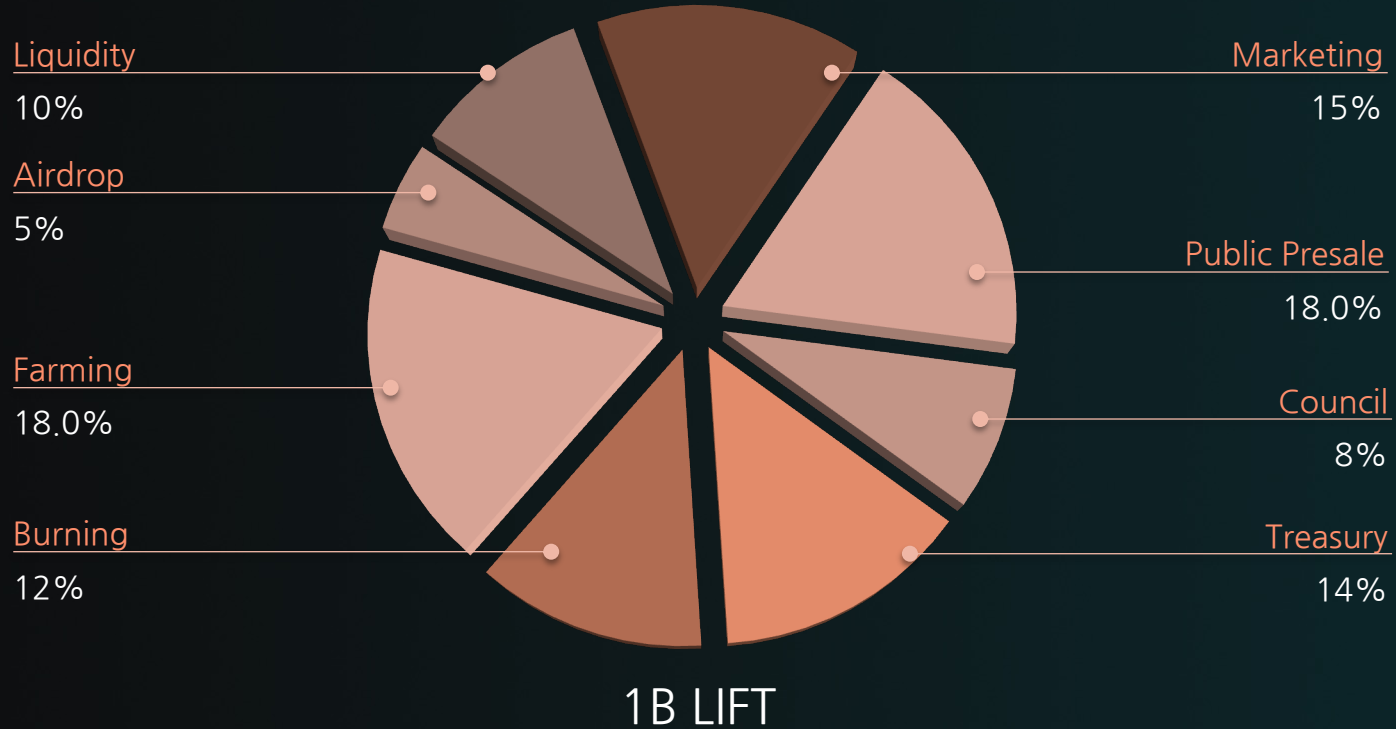

Increase project's token utilisation by deploying staking and/or liquidity mining programs with referrals and lockups
